

Wrap™ 920

Video Eyewear

www.vuzix.com

iPhone not included

With unmatched styling and performance the Vuzix Wrap 920 video eyewear is the most advanced wearable display available today!

This sunglass-style eyewear, with a virtual 67-inch screen as seen from 10 feet, displays crystal clear 2D and 3D video while sitting by the pool or in an airplane at 35,000 feet. With support for standard 2D movies and most common 3D video formats, you'll be able to watch all the latest movie releases, as they were meant to be seen.

Versatility & Performance

The Vuzix Wrap 920 eyewear connects to any NTSC or PAL audio/video device with composite video-out capabilities and connections. An included RCA Composite A/V cable and Composite A/V Adapter for iPod®/iPhone® ensure simple plug 'n play connection to today's most popular portable media players. Support for optional Wrap Adapters provide increased connectivity and capabilities unique to Wrap video eyewear. At last, a single pair of video eyewear for all occasions.

For all Video Devices
